

MARCH 2026 PROGRAM

A SPECIAL PRESENTATION
BY **KIRK GENTALEN**
MIDCOAST REGIONAL STEWARD
MAINE COAST HERITAGE TRUST

PSYCHED FOR SPRING!

HOSTED BY THOMASTON GARDEN CLUB AND THOMASTON PUBLIC LIBRARY
WEDNESDAY MARCH 25, 2026 AT 7PM
THOMASTON PUBLIC LIBRARY – 60 MAIN STREET IN THOMASTON

We are happy to welcome **KIRK GENTALEN** who brings over 33 years of environmental education and ecotourism experience to this presentation. He has led hikes from Maine to California to Alaska and has spent the last 22 years living, working and observing in Knox County. Spring is the top season for nature observing and it brings a heightened anticipation of energy and delights. It's a season of growth, increasing warmth and daylight, and shifts in wildlife behavior that is teeming with flowers, migration, and carnivorous butterfly caterpillars. Kirk will regale us with an evening of photos, stories, fun facts, tips, and chuckles about "all spring naturey things" to look for and to look forward to this season along the coast of Maine — a little something to get every nature observer **PSYCHED FOR SPRING!**

GUESTS ARE WELCOME!
